## What is eM Client?

eM Client integrates email, calendars, tasks, contacts and notes in a clean and simple desktop app.

Switching to eM Client is super simple - you can automatically import your data from Microsoft Outlook, Outlook Express, Windows Mail, Thunderbird and other software.

**eM Client can be easily synchronized with Gmail or any other email service.**

## Why use Google Workspace with eM Client?

### Full Google Workspace support

eM Client is built to work with Google Workspace and supports Mail, Calendar, Contacts and Tasks. It is the only email app on the market with full support of Gmail labels, Gmail archive, mirroring of Gmail conversations, email aliases sync, server search, or vacation responder (out of office) - and there's more.

### Fast, clean, yet powerful

eM Client is packed with unique advanced features, but it's fast and light compared to its competitors.

### VIP support

The eM Client support team pays attention to every problem of every single one of our customers, so they are never left without a solution.

## Why sell Google Workspace with eM Client?

### Added value for your customers

Equip your customers with solid productivity tool fully compatible with Google services that works offline as well - do something other Google Workspace resellers cannot.

### Acquire extra customers

Those who were hesitant to switch to Google Workspace because it lacks features of a desktop email client will now have good reason to do so.

### Gain extra profit with no additional effort

Simply sell eM Client to your customers together with Google Workspace as a bundle.
